

RELIEF AND RECOVERY SUPPORT

Children of God, Sulawesi Earthquake and Sunda Strait Tsunami
FY19 Update for Presbyterian Church of Singapore

Programme Profile

Project name	Sulawesi Earthquake and Sunda Strait Tsunami
Project location	<ul style="list-style-type: none"> • Sigi district in Sulawesi province • Pandeglang district, Banten province and South Lampung district, Lampung province
Project Goal and Outcomes	<p>To alleviate sufferings associated to earthquake and tsunami and strengthen the resilience of children and local community</p> <ol style="list-style-type: none"> 1. Establishment of education infrastructure 2. Enhancing psychosocial and life skills 3. Provision of kitchen kits
Number of direct beneficiaries	<p>Approximately nearly 1000 people (986)</p> <ul style="list-style-type: none"> • 120 children under Sulawesi response and • 866 beneficiaries from 235 households

Sulawesi: Progress in Education

The successive disasters took a toll on the educational services in the affected communities, disrupting the education of 184,876 students. It is estimated that 1,509 schools were impacted by the earthquake, tsunami, and liquefaction, with 1,451 classrooms severely damaged and 4,600 others in need of rehabilitation. The joint needs assessment report showed that there was an 88% decrease in school attendance in areas visited, due to lack of teachers, damage to school buildings, and fear to return to school. To address this need, PCS together with WVI has built

- 3 Temporary Learning Centre (TLC); 2 elementary schools in Donggala Districts, and 1 in Parigi Moutong District in Sulawesi.
- School kits.
- Collaboration with the education ministry, providing training for teachers on education in emergencies.
- The three school locations that were later considered as targets are:

School name	District	# of students
SDN 13 Sindue	Donggala	60
SDN 3 Sindue	Donggala	112
Paud Favorit	Parigi Moutong	25

- As of May 2019, CENTRE has completed the construction for one TLC in Donggala.

Construction of remaining temporary classrooms is set to be completed by third week of July.

Back to School

12-year old Aldo is relieved that he and his classmates no longer need to stay in the tents for their classes.

“It’s hot and uncomfortable inside the tent,” he shares. Following the disasters that struck Central Sulawesi in

September 2018, students had to use tents as temporary learning spaces. At least 1,509 schools were impacted by the earthquake, disrupting the education of more than 184,000 students.

“Our classes were suspended for a month. When our school reopened, I did not immediately go back because our classrooms were damaged. I’ve missed playing with my classmates and attending my classes, especially the Indonesian language class,” Aldo adds.

Wahana Visi Indonesia, along with partners, has constructed six temporary classrooms in Aldo’s school. The construction of a gender latrine is also on-going while other classroom materials like tables and chairs are to be provided to the school.

“I like it here. There’s more air coming in,” Aldo smiles, referring to the TLC. With a conducive learning space, he is more excited to go to school. He said he’s studying hard because he hopes to become a soldier one day and be able to protect his nation.

To date, World Vision has constructed 12 temporary learning classrooms (TLC). The initiative aims to complete 54 TLCs for nine schools until September 2019. Each school will also have gender-sensitive latrines to ensure that children have access to water, sanitation and hygiene facilities.

Progress from Relief to Recovery: Sunda strait tsunami

On 22 December 2018, tsunami hits coastal area of Sunda Strait affecting the shores in Banten province in west Java and Lampung province in Sumatera, Indonesia. The sea level increased up to 3 meters in some areas caused massive damage to infrastructure including the buildings and hotels in the affected locations. There were no earthquake before the tsunami and it was triggered by the eruption of mount Anak Krakatau.

The death toll has reached to 437 casualties; 14,059 people have been injured and 16 people are still reported missing. A total of 351,239 people from the two provinces were affected by the tsunami. It

has also been reported that 2,752 houses, 92 hotels, 510 boats and 147 vehicles have been damaged (source: Indonesia National Disaster Management Agency).

Intervention area

Sunda Strait Tsunami Emergency Response

Focus Area

- Pandeglang District
- South Lampung District

- Carita
- Rajabasa
- Sumur
- Kalianda
- Labuan
- Cigeulis

Total beneficiaries
 **7,312 Lives**

What WVI Do

- 
Health Aids
- 
Psychological Support
- 
Cash-based Programme
- 
Distribution for Non-food Items
- 
Disaster Risk Reduction

WVI'S INTERVENTION

- 819** Parents join the Infant and Young Child Feeding Program
- 789** Children receive nutritious food through Infant and Young Child Feeding Program
- 1.511** Children receive psychological support through Child-friendly Space
- 694** Parent receive dissemination about child protection
- 2.045** Children have been benefited from Non-food Items distribution
- 1.519** Families receive Family Kit
- 555** People join in Cash-for-Work Program
- 2 Schools & 321 Children** Affected by Disaster Risk Reduction Program

Data collection process for the participants of Cash-for-Work Program

The community members of Cigorondong Village clean up the village as a part of Cash-for-Work Program

235 of the family kits are funded by Presbyterian Church of Singapore.
